### **13. Roxie Jones Paddle Raise**

At this point in our country's history, there have been too many examples of racism, bigotry and exclusion. In response, our community was compelled to reassert our commitment to diversity, equity and inclusion with this statement:

"...We teach diversity, equity, and inclusion through developmentally appropriate practices which include curriculum, modeling, and peaceful conflict resolution. We talk to children about fairness and equity, read children's books that emphasize diversity, and march in our Peace Parade to honor Dr. Martin Luther King, other peacemakers, and the values they upheld. We live these values every day in our school community, emphatically. The racial, cultural, ethnic, and socioeconomic backgrounds, the diverse family structures, and the learning differences of the members of our community present opportunities for each child to learn from those whose life experiences differ from their own. We are dedicated to maintaining a diverse school..."

Roxie Jones, one of the founders of our school and a beloved teacher, is the embodiment of our school's values of equity and inclusion as well as learning, creating and caring. Let us thank Roxie and all of our founders for creating this place we hold dear, now more than ever. Let's let the Pacific Primary teachers and staff know that we value them even more at this crossroads in our country's history for their tireless work to develop a future generation that will reach out and not self-protect; a generation that will seek to listen before seeking to be understood; a generation that will embrace the challenges in the differences between us.

**We hope you will join us at this point in the evening by taking out your phones and giving as generously as you can for our only paddle raise for the evening!**
